Brands on a Mission Myriam Sidibe, 2020-05-10 Winner of the Bronze 2021 AXIOM Business Book Award in the category of Philanthropy / Nonprofit / Sustainability. *Brands on a Mission* explores the importance of creating a performance culture that is built on driving impact through purpose, and the type of talent required to drive these transformational changes within companies - from CEO to brand developers. Using evidence from interviews and stories from over 100 CEOs, thought leaders and brand managers, the book presents an emergent model that organisations can follow to build purpose into their growth strategy - and shows how to bridge the gap between Brand Say and Brand Do. Readers will learn from the real experts in the field: how Paul Polman, former CEO of Unilever, built purpose into the DNA of his company; what keeps Alan Jope (new CEO, Unilever) and Emmanuel Faber (CEO, Danone) awake at night; and how brand developers from Durex, Dove, Discovery and LIXIL have made choices and the reasons behind them. In this book you will learn how a soap brand Lifebuoy taught one billion people about hygiene, how a beer is tackling gender-based violence, and how a toothpaste is tackling school absenteeism amongst many others. Renowned experts like Peter Piot (Director, London School of Health and Tropical Medicine), Michael Porter (Professor, Harvard School of Business), Jane Nelson (Director, Corporate Responsibility Initiative, Harvard Kennedy School) and Susie Orbach (leading feminist and formerly professor, London School of Economics) also share examples, data and their everyday experiences of helping corporates create a culture of purpose. And leading NGOs and UN experts like Lawrence Haddad (Executive Director, GAIN) and Natalia Kanem (Executive Director of UNFPA) will recount how the public and private sector have worked together to create an accelerated path to reaching the Sustainable Development Goals by 2030. The book provides a clear pathway of how to take brands through the journey of developing impactful social missions and driving business growth, and is an essential guide for both managers and students alike.

Ellis Island to Ebbets Field Peter Levine, 1993-09-09 In *Ellis Island to Ebbets Field*, Peter Levine vividly recounts the stories of Red Auerbach, Hank Greenberg, Moe Berg, Sid Luckman, Nat Holman, Benny Leonard, Barney Ross, Marty Glickman, and a host of others who became Jewish heroes and symbols of the difficult struggle for American success. From settlement houses and street corners, to Madison Square and Fenway Park, their experiences recall a time when Jewish

males dominated sports like boxing and basketball, helping to smash stereotypes about Jewish weakness while instilling American Jews with a fierce pride in their strength and ability in the face of Nazi aggression, domestic anti-Semitism, and economic depression. Full of marvelous stories, anecdotes, and personalities, Ellis Island to Ebbets Field enhances our understanding of the Jewish-American experience as well as the struggles of other American minority groups.

Geomorphology Richard J. Chorley, Stanley A. Schumm, David E. Sugden, 2019-04-10 Originally published in 1984. This major text covers the whole discipline of geomorphology, presenting a clear and comprehensive overview of the field, drawing on the full range of modern research. Landforms and their formative processes are treated on a broad spectrum of spatial scales, and examples are drawn from the major geological, climatic and biotic environments. The book is divided conveniently into some 170 clearly defined sections to allow readers to make the most efficient use of those parts of the text relevant to their particular needs. After introducing the basic concepts such as systems analysis, morphologic and cascading systems, the historical-evolutionary approach and process-response geomorphology, the book moves on to the geological background to geomorphology and then the extensive third part deals with the geomorphic processes and responding landforms. Part four examines climatic geomorphology and the appendix touches on applied geomorphology, especially fluvial processes.

Life on the Color Line Gregory Howard Williams, 1996-02-01 “Heartbreaking and uplifting... a searing book about race and prejudice in America... brims with insights that only someone who has lived on both sides of the racial divide could gain.”—Cleveland Plain Dealer “A triumph of storytelling as well as a triumph of spirit.”—Alex Kotlowitz, award-winning author of *There Are No Children Here* As a child in 1950s segregated Virginia, Gregory Howard Williams grew up believing he was white. But when the family business failed and his parents’ marriage fell apart, Williams discovered that his dark-skinned father, who had been passing as Italian-American, was half black. The family split up, and Greg, his younger brother, and their father moved to Muncie, Indiana, where the young boys learned the truth about their heritage. Overnight, Greg

Williams became black. In this extraordinary and powerful memoir, Williams recounts his remarkable journey along the color line and illuminates the contrasts between the black and white worlds: one of privilege, opportunity and comfort, the other of deprivation, repression, and struggle. He tells of the hostility and prejudice he encountered all too often, from both blacks and whites, and the surprising moments of encouragement and acceptance he found from each. Life on the Color Line is a uniquely important book. It is a wonderfully inspiring testament of purpose, perseverance, and human triumph. Winner of the Los Angeles Times Book Prize
