Fluke Christopher Moore,2009-10-13 “Readers new to the work of Christopher Moore will want to know two things immediately. First: Where has this guy been hiding? (Answer: In plain sight, since he has a cult following.)...[H]e writes laid back fables straight out of Margaritaville, on the cusp of humor and science fiction.”—Janet Maslin, New York Times
Whale researcher Nathan Quinn has a problem. It’s not a new problem; in fact, it’s been around for nearly 20 million years. And Nate’s spent most of his adult life working to solve it. You see, although everybody (well, almost everybody) knows that humpback whales sing (outside of human composition, the most complex songs on the planet) no one knows why. Nate, a Ph.D. in behavior biology, intends to discover the answer to this burning question—and soon. Every winter he and Clay Demolocus, his partner in the Maui Whale Research Foundation, ply the warm waters between the islands of Maui and Lanai, recording the eerily beautiful songs of the humpbacks and returning to their lab for electronic analysis. The trouble is, Nate’s beginning to wonder if he hasn’t spent just a little too much time in the sun. Either that, or he’s losing his mind. Because today, as he was shooting an I.D. photo of a humpback tail fluke, Nate could’ve sworn he saw the words “Bite Me” scrawled across the whale’s tail. . .

Orcapedia Captain Paul Watson,Tiffany Humphrey,2020-08-19 ORCAPEDIA presents a sobering look at the current imprisonment of a highly intelligent, socially complex, non-threatening species—orcas—by an industry strictly for profit. Many remember the movement to release Keiko, the orca who appeared in the family drama Free Willy, into the wild. Today, there are dozens of other orcas still in captivity. Readers are introduced to more than 60 orcas by name along with colored photos, personal history, and notable incidents that have occurred during their captivity. The text makes it clear that captured orcas are imprisoned “inmates” and instills a full understanding of the injustices being perpetrated. Five pages of headstones of deceased orcas graphically illustrates the problems they face. Resources and recommendations on alternative interactions with orcas are provided. One of the authors, Captain Paul Watson, is the founder of the Sea Shepherd Conservation Society and has worked on the front line for decades trying to protect the ocean’s wildlife.
