*The Warren Commission Report* U.S. Government,President's Commission on the Assassination of President Kennedy,2023-11-13 Warren Commission Report is the result of the investigation regarding the assassination of United States President John F. Kennedy. The U.S. Congress passed Senate Joint Resolution 137 authorizing the Presidential appointed Commission to report on the assassination of President John F. Kennedy, mandating the attendance and testimony of witnesses and the production of evidence. After eleven months of the investigation the Commission presented its findings in 888-page final report. The key findings presented in this report were that President Kennedy was assassinated by Lee Harvey Oswald, that Oswald acted entirely alone and that Jack Ruby also acted alone when he killed Oswald two days later. The Commission's findings have proven controversial and have been both challenged and supported by later studies.

*The Narrator* Sylvie Patron,2023-09 The narrator (the answer to the question who speaks in the text?) is a commonly used notion in teaching literature and in literary criticism, even though it is the object of an ongoing debate in narrative theory. Do all fictional narratives have a narrator, or only some of them? Can narratives thus be narratorless? This question divides communicational theories (based on the communication between real or fictional narrator and narratee) and

noncommunicational or poetic theories (which aim to rehabilitate the function of the author as the creator of the fictional narrative). Clarifying the notion of the narrator requires a historical and epistemological approach focused on the opposition between communicational theories of narrative in general and noncommunicational or poetic theories of the fictional narrative in particular. The Narrator offers an original and critical synthesis of the problem of the narrator in the work of narratologists and other theoreticians of narrative communication from the French, Czech, German, and American traditions and in representations of the noncommunicational theories of fictional narrative. Sylvie Patron provides linguistic and pragmatic tools for interrogating the concept of the narrator based on the idea that fictional narrative has the power to signal, by specific linguistic marks, that the reader must construct a narrator; when these marks are missing, the reader is able to perceive other forms and other narrative effects, specially sought after by certain authors.

*Strange Voices in Narrative Fiction* Per Krogh Hansen, Stefan Iversen, Henrik Skov Nielsen, Rolf Reitan, 2011-10-27 From its beginnings narratology has incorporated a communicative model of literary narratives, considering these as simulations of natural, oral acts of communication. This approach, however, has had some problems with accounting for the strangeness and anomalies of modern and postmodern narratives. As many skeptics have shown, not even classical realism conforms to the standard set by oral or 'natural' storytelling. Thus, an urge to confront narratology with the difficult task of reconsidering a most basic premise in its theoretical and analytical endeavors has, for some time, been undeniable. During the 2000s, Nordic narratologists have been among the most active and insistent critics of the communicative model. They share a marked skepticism towards the idea of using 'natural' narratives as a model for understanding and interpreting all kinds of narratives, and for all of them, the distinction of fiction is of vital importance. This anthology presents a collection of new articles that deal with strange narratives, narratives of the strange, or, more generally, with the strangeness of fiction, and even with some strange aspects of narratology.

*Paradox at Play* Clint Johnson,2022-08-26 Fresh translations of Meister Eckhart's sermons are made available in this volume: three for the first time in English and sixteen others for the first time since C. de B. Evans translated them in 1924 and 1931, long before the critical editions of the manuscripts were published in 2003. Other important sermons are included in the translations as well. They improve upon previous translations which were not as sensitive to Eckhart's metaphorical repertoire and his subtle word choice and phrasing. The extended introductory essay describes Eckhart's metaphors and how they work together to form a cohesive whole. By looking at what his metaphors tell us about what an individual person is and how the view of the individual changed in the late medieval world, his ostensibly shocking rhetoric (in places where it is actually novel) is shown to be indicative of a larger cultural tide that culminated in the modern worldview. Finally, all of his homiletic choices are shown to be in service of the greater goal: catalyzing transformative change in his audience by stubbornly insisting on his paradoxes and jarring people out of their customary way of relating to God and themselves.
