Affective Health and Masculinities in South Africa-Hans Reihling 2020-04-24 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

New Advances in Gastrointestinal Motility Research-L. K. Cheng 2013-06-01 Research into gastrointestinal motility has received renewed interest in part due to recent advances in the techniques for measuring the structure and function of gastrointestinal cells, tissue and organs. The integration of this wealth of data into biophysically based computation models can aid in interpretation of experimental and clinical measurements and the refinement of measurement techniques. The contents of this book span multiple scales - from cell, tissue, organ, to whole body and is divided into four broad sections covering: i) gastrointestinal cellular activity and tissue structure; (ii) techniques for measuring, analyzing and visualizing high-resolution extra-cellular recordings; (iii) methods for sensing

gastroelectrical activity using non-invasive bio-electro-magnetic fields and for modulating the underlying gastric electrical activity and finally (iv) methods for assessing manometric and videographic motility patterns and the application of these data for predicting the flow and mixing behavior of luminal contents by using computational fluid dynamic techniques. This book aims to provide both an overview of historical and existing research techniques as well as to highlight future directions and challenges for the community as a whole. It will be suitable for clinicians to understand the cellular and biophysical underpinnings of gastric emptying, gastroenterologists, surgeons, bioengineers and all scientists with interests in gastrointestinal motility research.

Harvesting the Biosphere-Vaclav Smil 2015-08-21 An interdisciplinary and quantitative account of human claims on the biosphere's stores of living matter, from prehistoric hunting to modern energy production. The biosphere--the Earth's thin layer of life--dates from nearly four billion years ago, when the first simple organisms appeared. Many species have exerted enormous influence on the biosphere's character and productivity, but none has transformed the Earth in so many ways and on such a scale as Homo sapiens. In *Harvesting the Biosphere*, Vaclav Smil offers an interdisciplinary and quantitative account of human claims on the biosphere's stores of living matter, from prehistory to the present day. Smil examines all harvests--from prehistoric man's hunting of megafauna to modern crop production--and all uses of harvested biomass, including energy, food, and raw materials. Without harvesting of the biomass, Smil points out, there would be no story of human evolution and advancing civilization; but at the same time, the increasing extent and intensity of present-day biomass harvests are changing the very foundations of civilization's well-being. In his detailed and comprehensive account, Smil presents the best possible quantifications of past and current global losses in order to assess the evolution and extent of biomass harvests. Drawing on the latest work in disciplines ranging from anthropology to environmental science, Smil offers a valuable long-term, planet-wide perspective on human-caused environmental change.

Fly Tying for Everyone-Tim Cammisa 2021-07-01 Learn a broad range of techniques for dry flies, streamers, and wet flies by tying the modern flies that everyone is talking about. Author Tim Cammisa teaches you how to tie these simple but effective patterns and then how to take the techniques you've learned and use them for most of the other core patterns—old and new—that should be in your box. Includes information on the latest materials, tying tips from other tiers, and 16 patterns with recipes and complete step-by-step instructions.

Philosophical Devices: Proofs, Probabilities, Possibilities, and Sets-David Papineau 2012-10-04 This book is designed to explain the technical ideas that are taken for granted in much contemporary philosophical writing. Notions like denumerability, modal scope

distinction, Bayesian conditionalization, and logical completeness are usually only elucidated deep within difficult specialist texts. By offering simple explanations that by-pass much irrelevant and boring detail, *Philosophical Devices* is able to cover a wealth of material that is normally only available to specialists. The book contains four sections, each of three chapters. The first section is about sets and numbers, starting with the membership relation and ending with the generalized continuum hypothesis. The second is about analyticity, a prioricity, and necessity. The third is about probability, outlining the difference between objective and subjective probability and exploring aspects of conditionalization and correlation. The fourth deals with metalogic, focusing on the contrast between syntax and semantics, and finishing with a sketch of Gödel's theorem. *Philosophical Devices* will be useful for university students who have got past the foothills of philosophy and are starting to read more widely, but it does not assume any prior expertise. All the issues discussed are intrinsically interesting, and often downright fascinating. It can be read with pleasure and profit by anybody who is curious about the technical infrastructure of contemporary philosophy.

The Kind of Friends We Used to Be-Frances O'Roark Dowell 2010-04-27 Edgar Award-winning novelist Frances O'Roark Dowell explores the shifting terrain of middle-school friendship in this follow-up to the beloved *The Secret Language of Girls*. Kate and Marylin are smack dab in the middle of middle school—seventh grade—and they know they can never be best friends like they used to be. Marylin is a middle school cheerleader obsessed with popularity and hairstyles, and Kate is the exact opposite with her combat boots and hankering to learn guitar and write her own songs. Still, Kate and Marylin yearn to find some middle ground for their friendship—but it's harder than they ever imagined.

Media & Politics-Wayne Errington 2011 Media and Politics 2e offers a thorough introduction to the politics of the Australian media, particularly the effect that Australia's liberal democratic tradition has on the operation and structure of the media, and in turn the effect of the media on politics. It examines the development and evolution of the Australian media, as well as the key debates and controversies which have shaped the domestic media landscape in the last decade. It seeks to explain the dynamics of contemporary media policy and technology while using an approach that locates such changes in enduring principles of political power and institutional behaviour. The book maps out the key institutions, ideas and actors which influence the operation of the Australian media i.e. the legal and bureaucratic framework, the regulators, the interest groups and the public, providing a strong framework to understand the relationship between media and politics in Australia.

Desert Views & Flower Hues-Yvonne Weaver 2014-07-18 Yvonne Weaver created this coloring book to provide hours of enjoyment. Yvonne has chosen to make each page something children of all ages can color and enjoy with their family and friends. She has included desert scenes as well as reptiles and migratory birds who visit the wetland areas. The flowers are just for fun; she loves to color them herself. The desert comes alive in the spring with many beautiful colored wildflowers. The desert scenery changes colors as the sun rises and sets. Yvonne saw a need for a coloring book to encourage children to love our planet and care for our wildlife. She suggests, "Just have fun with it."

Seductive Nights: The Complete Julia and Clay Collection-Lauren Blakely 2014-12-28 Seductive Nights: The Complete Julia and Clay Collection is a box set that includes Night After Night, After This Night, and One More Night. Night After Night... I wasn't in the market for a man. I definitely wasn't looking for a man like Clay Nichols, with a dirty mind and a mouth to match. But then he walked into my life one night and he was everything I wanted. He's also exactly what I can't have. Because there's a price tag on my head. I'm a wanted woman and I owe debts that were never mine. The dangerous men I owe them to have threatened to hurt anyone in my life if I don't pay up. So I work off my debts by playing cards in an underground poker ring. One so risky I shouldn't get involved with a soul. Clay is irresistible though, so I steal away to New York to spend one delicious weekend with the man who unlocks pleasure in me I never knew was possible, and who captivates my mind. But when I return home, trouble is waiting for me and for everyone I care about. After This Night... Some women are impossible to forget no matter how hard you try. Believe me, I've tried. I've done everything I can to get the gorgeous, captivating, sexy-as-sin Julia Bell out of mind since she skipped out after one seductive weekend together. Trouble is, I can't. Since she's in my heart. And when I run into her at her sister's wedding, she falls into my arms again, and my bed. Finally, she tells me everything, and it's my turn -- my turn to help her find her way out of the trouble that's been chasing her. Good thing I know exactly how to do that. As long as I can keep her far away from the men who put a price tag on her head. One More Night... Happy endings don't come easily. They're hard-won and I'm going to have to keep earning mine... I thought my future with the fiery Julia Bell was clear sailing. But life doesn't work that way and trouble looms in every corner. Trouble from clients, trouble with timing, and, most of all, trouble from her past returns on our trip to Vegas. A dangerous man who knows much more about my woman than he should surfaces in Sin City where we're enjoying a dirty, delicious weekend getaway. But I'll do everything to protect her, no matter the cost...as long as I'm not too late.

Platinum Poems-David Harris 1919-01-15 Poetry anthology

Beyond Collapse-T. Joseph Miller Jr 2012-10-20 Civilizations come and go... ...and they don't always go quietly. In our global civilization, the consequence of it all crashing is going to be far-reaching, and with nowhere to hide. With so many moving parts and a lack of long-term stewardship by our leaders, odds are good that you will want to make at least a few preparations... but the question you often ask is: how? That's where I come in. In *Beyond Collapse*, we not only get you prepared for such an event, but we also help you and your fellow survivors come together, defend one another, preserve what may be lost and rebuild civilization together. Unlike most books of this type, we don't require a paramilitary mindset, tinfoil headgear, bunkers, or living "off-grid." Everything in here is geared towards gaining skills and resources that are just as useful and socially acceptable in peaceful times as they will be when society and civilization crashes. You will find this book useful for beginners, or those who have been preparing for a long time. The best part is, you will find it useful even if civilization holds up just fine.

The Desktop Aquarium-Running Press 2010-05-20 This larger version of the bestselling Mini Kit includes four fish, more gravel, a decorative plant, four colorful clings to change the backdrop of your aquarium, and a magnetic wand that allows you to move the fish around. Penitence-Jennifer Laurens 2011-07-01 Despite her guardian angel's disappearance, Zoe forces herself to accept that she still has a purpose. When a mysterious spirit appears, Zoe thinks she has a new guardian angel. Instead, her brother's addiction worsens, her parents are on the brink of separation, and her best friend tries to kill her. The spirit she thinks is her new guardian isn't there to protect her: he's out to destroy her family and seize Zoe's soul.

Making Way-Theo Dorgan 2013 This is no ordinary love story; it is more than that. It is about joy and pain and laughter; life and loss; who we are and what really matters to us. A novel that touches on history, destiny, and fate.

Along Came a Demon-Linda Welch 2013-01-11 I'm told the dead are all around us. I wouldn't know about that, I see only the violently

slain. They can be victims of hit-and-run, innocents caught in a cross-fire, the murdered. They whisper to me and they never, ever, forget the face of their killer. I've learned to live with my uncanny ability, in fact I've made a career out of it. The departed aren't the only supernaturals I see. No, they're not vampires or werewolves or fae - those things don't exist. We live side by side with what some call the Otherworldly. That's too much of a mouthful for me, I call them demons. If you saw them as I do, you'd know why. Right now I'm trying to track down a missing six year-old boy whose mother was murdered. Or maybe she wasn't. To further complicate the case, Clarion PD gave me a partner I'd rather shoot than work with. I can't tell them he's a demon. They'd think I'm crazy. I'm Tiff Banks. Welcome to my world.
