**Eruptions that Shook the World**-Clive Oppenheimer 2011-05-26 What does it take for a volcanic eruption to really shake the world? Did volcanic eruptions extinguish the dinosaurs, or help humans to evolve, only to decimate their populations with a super-eruption 73,000 years ago? Did they contribute to the ebb and flow of ancient empires, the French Revolution and the rise of fascism in Europe in the 19th century? These are some of the claims made for volcanic cataclysm. Volcanologist Clive Oppenheimer explores rich geological, historical, archaeological and palaeoenvironmental records (such as ice cores and tree rings) to tell the stories behind some of the greatest volcanic events of the past quarter of a billion years. He shows how a forensic approach to volcanology reveals the richness and complexity behind cause and effect, and argues that important lessons for future catastrophe risk management can be drawn from understanding events that took place even at the dawn of human origins.

**The Palgrave International Handbook of Mixed Racial and Ethnic Classification**-Zarine L. Rocha 2020-01-03 This handbook provides a global study of the classification of mixed race and ethnicity at the state level, bringing together a diverse range of country case studies from around the world. The classification of race and ethnicity by the state is a common way to organize and make sense of populations in many countries, from the national census and birth and death records, to identity cards and household surveys. As populations have grown, diversified, and become increasingly transnational and mobile, single and mutually exclusive categories struggle to adequately capture the complexity of identities and heritages in multicultural societies. State motivations for classification vary widely, and have shifted over time, ranging from subjugation and exclusion to remediation and addressing inequalities. The chapters in this handbook illustrate how differing histories and contemporary realities have led states to count and classify mixedness in different ways, for different reasons. This collection will serve as a key reference point on the international classification of mixed race and ethnicity for students and scholars across sociology, ethnic and racial studies, and public policy, as well as policy makers and practitioners.

**Russian Society and the Orthodox Church**-Zoe Knox 2004-06-02 Russian Society and the Orthodox Church examines the Russian Orthodox Church's social and political role and its relationship to civil society in post-Communist Russia. It shows how Orthodox prelates, clergy and laity have shaped Russians' attitudes towards religious and ideological pluralism, which in turn have influenced the ways in which Russians understand civil society, including those of its features - pluralism and freedom of conscience - that are essential for a functioning democracy. It shows how the official church, including the Moscow Patriarchate, has impeded the development of civil society, while on the other hand the non-official church, including nonconformist clergy and lay activists, has promoted concepts central to civil society.

**The Latinos of Asia**-Anthony Christian Ocampo 2016-03-02 Is race only about the color of your skin? In The Latinos of Asia, Anthony Christian Ocampo shows that what "color" you are depends largely on your social context. Filipino Americans, for example, helped establish the Asian American movement and are classified by the U.S. Census as Asian. But the legacy of Spanish colonialism in the Philippines means that they share many cultural characteristics with Latinos, such as last names, religion, and language. Thus, Filipinos' "color"—their sense of connection with other racial groups—changes depending on their social context. The Filipino story demonstrates how immigration is changing the way people negotiate race, particularly in cities like Los Angeles where Latinos and Asians now constitute a collective majority. Amplifying their voices, Ocampo illustrates how second-generation Filipino Americans' racial identities change depending on the communities they grow up in, the schools they attend, and the people they befriend. Ultimately, The Latinos of Asia offers a window into both the racial consciousness of everyday people and the changing racial landscape of American society.

**In the Shadow of the Lingering Mt. Pinatubo Disaster**-Maria Cynthia Rose Banzon Bautista 1993

**Trojan Warriors**-David Clarke 2002

**Instrumental Music for Dyslexics**-Sheila Oglethorpe 2002-02-01 Instrumental Music for Dyslexics is written mainly for music teachers. It describes dyslexia in layman's terms and explains how the various problems which a dyslexic may have can affect all aspects of learning to play a musical instrument. It alerts the music teacher with a problem pupil to the possibilities of that pupil's having some form of dyslexia. Although Sheila Oglethorpe is primarily a piano teacher the general principle behind most, if not all, the suggestions is such that they can be adapted for use by other instrumentalists. The book presents ways in which the music teacher can contribute to the self esteem and thereby the general welfare of the dyslexic pupil who is often musically gifted and has much to offer. The book will also be of interest to dyslexia specialists who have hitherto directed their concentration towards the language-based problems of the dyslexic.

**Homophones and Homographs**- 2014-11-01 This expanded fourth edition defines and cross-references 9,040 homophones and 2,133 homographs (up from 7,870 and 1,554 in the 3rd ed.). As the most comprehensive compilation of American homophones (words that sound alike) and homographs (look-alikes), this latest edition serves well where even the most modern spell-checkers and word processors fail—although rain, reign, and rein may be spelled correctly, the context in which these words may appropriately be used is not obvious to a computer.

**Sex Slaves**-Louise Brown 2000 Trafficking in human beings for the sex industry has been practised for centuries. It occurs today all around the world and the incidence in Asia is nothing new. What is different in contemporary Asia is the SCALE of the trade, the AGES of those involved, and the sophisticated ORGANISATION applied to the marketing of girls. This book demolishes the myths about the wholesomeness of 'Asian values' and takes a controversial and unique approach to the sex industry in Asia by viewing it as a product of Asian cultural values. There are interviews with sex workers, their families, clients and the staff of the charities that work with the women. Above all else, the book tells the story -- often in their own words -- of the girls and women who are forced into this despicable trade. With sensitivity and compassion, SEX SLAVES publicises the tragedy of the voiceless women of Asia.

**The Wisdom of Whores: Bureaucrats, Brothels, and the Business of AIDS**-Elizabeth Pisani 2008-06-17 A flame-throwing epidemiologist talks about sex, drugs, and the mistakes (dismal), ideologies (vicious), and hopes (realistic) of international AIDS prevention. When people ask Elizabeth Pisani what she does for a living, she says, "sex and drugs." As an epidemiologist researching AIDS, she's been involved with international efforts to halt the disease for fourteen years. With swashbuckling wit and fierce honesty, she dishes on herself and her colleagues as they try to prod reluctant governments to fund HIV prevention for the people who need it most—drug injectors, gay men, sex workers, and johns.Pisani chats with flamboyant Indonesian transsexuals about their boob jobs and watches Chinese streetwalkers turn away clients because their SUVs aren't nice enough. With verve and clarity, she shows the general reader how her profession really works; how easy it is to draw wrong conclusions from "objective" data; and, shockingly, how much money is spent so very badly. "Exhibit A": the 45 billion taxpayer dollars the Bush administration is committing to international AIDS programs.

**Children of Uncertain Fortune**-Daniel Livesay 2018-01-11 By tracing the largely forgotten eighteenth-century migration of elite mixed-race individuals from Jamaica to Great Britain, Children of Uncertain Fortune reinterprets the evolution of British racial ideologies as a matter of negotiating family membership. Using wills, legal petitions, family correspondences, and inheritance lawsuits, Daniel Livesay is the first scholar to follow the hundreds of children born to white planters and Caribbean women of color who crossed the ocean for educational opportunities, professional apprenticeships, marriage prospects, or refuge from colonial prejudices. The presence of these elite children of color in Britain pushed popular opinion in the British Atlantic world toward narrower conceptions of race and kinship. Members of Parliament, colonial assemblymen, merchant kings, and cultural arbiters--the very people who decided Britain's colonial policies, debated abolition, passed marital laws, and arbitrated inheritance disputes--rubbed shoulders with these mixed-race Caribbean migrants in parlors and sitting rooms. Upper-class Britons also resented colonial transplants and coveted their inheritances; family intimacy gave way to racial exclusion. By the early nineteenth century, relatives had become strangers.

**The Philippine Islands**-John Bowring 1859

**Amazons of the Huk Rebellion**-Vina A. Lanzona 2009-04-22 Labeled “Amazons” by the national press, women played a central role in the Huk rebellion, one of the most significant peasant-based revolutions in modern Philippine history. As spies, organizers, nurses, couriers, soldiers, and even military commanders, women worked closely with men to resist first Japanese occupation and later, after WWII, to challenge the new Philippine republic. But in the midst of the uncertainty and violence of rebellion, these women also pursued personal lives, falling in love, becoming pregnant, and raising families, often with their male comrades-in-arms. Drawing on interviews with over one hundred veterans of the movement, Vina A. Lanzona explores the Huk rebellion from the intimate and collective experiences of its female participants, demonstrating how their presence, and the complex questions of gender, family, and sexuality they provoked, ultimately shaped the nature of the revolutionary struggle. Winner, Kenneth W. Baldrige Prize for the best history book written by a resident of Hawaii, sponsored by Brigham Young University-Hawaii
